

Maintenance Questionnaire

Dear Customer,

Prior to us carrying out any maintenance work on your site we need to gather as much factual information as possible. This will help minimise the number of unexpected and costly problems on site as well as any delays.

If you are unable to provide the necessary information, we can organise a site visit/survey. This however will be a chargeable visit and you will receive a report after the visit. Please let us know if you would prefer this option.

Pricing for maintenance will be based upon the information that you have provided on this questionnaire. Therefore, we would like to draw your attention to the following:

Any additional work due to unforeseen circumstances or lack of information provided, will be charged at a minimum of £30.00 per hour for labour, plus the cost of any extra plant equipment that is required.

All work carried out by the House of Flags maintenance team will be planned in normal working hours, 8:00am – 5:00pm, Monday to Friday, if you require any other day or time please stipulate here:
